

## Mark // Love Love Love

Undo my fear, undo my gloom  
Undo my disappointment  
Undo those foolish afternoons  
And I don't wanna talk about it  
All my life  
It's just a game  
All my tears  
It's just a subtle flame  
There's no way to explain  
What I do and how I feel  
And love is everywhere  
I love you more and deeper more and deeper...

Love Love Love  
We gotta love each other day by day  
When the sun goes down  
And the moon is high  
We gotta love each other  
Love until we... (die)

I'm in the middle of the empty street  
I'm in the middle of the endless highway  
I'm in the middle of guess and doubts  
Who I am and what I am?  
And who you are, and what the hell is all about?  
Love is here and all around  
Love is a thing that makes me proud  
Logical or Sensible,  
Social or Personal,  
Hypnotic(al) , Exotic(al),  
Erotic(al), Ironic(al)...

Love Love Love  
We gotta love each other day by day  
When the sun goes down  
And the moon is high  
When the day becomes night  
And when the night becomes day  
Everything is OK and everything is allright  
We gotta love each other  
Gotta fight fight fight...  
We gotta fight for our fate  
We gonna hold it tight  
And please please please,  
Appreciate what I mean,  
And please please please...

Another time and another place  
Looking at the mirror  
See the eyes of your dirty face  
Showing sorrow, whisper truth –  
That's Love
