Mark // Why Don't You Tell Me Your Name

Why don't you tell me your name, girl
We could dance tonight
Think I need a little more drinks to get things right, oh yeh
Shake me up a better solution
This could change the world
We gonna do something we like it
We gonna do something's good

Take my hand and come with me
We are the masters of our destiny

Oh oh oh, common girl, I need you baby
Oh oh oh oh, love is easy when you're not alone
Oh oh oh, when you're next to me I feel much easer
Oh oh oh oh, common girl, let's have some fun, yeh

Smoking cigarettes, drinking beers,
Looking for girls giving love with no fears
Sick of companies that are drinking champagne
Need some pane to exist on this game
Love machines can give you the love
I better choose the better things to be above
Nobody fills me, nobody tries
I better get on up and try to be on a high

Oh oh oh, common girl, I need you baby
Oh oh oh oh, love is easy when you're not alone
Oh oh oh, when you're next to me I feel much easer
Oh oh oh oh, common girl, let's have some fun, yeh
